

Don't put up with engine noise... forget wind roar, with:

COMPACT2K/TJ from Comunica

High performance radio/intercom system built into the ICOM IC-A3/22 radio battery case

- best noise and wind killing...
- best chat and radio comms...
- best comfort...
- toughest (3-year warranted)...
- best value...

choose our ultra-quiet headsets,
 - **PNA2K/TJ**
 (with **BETA** helmets if you wish) or:
 - **SIGMA** helmets with built-in electrics (pictured)...

Don't forget our world first 100kts+ mic windshield:
 - **"ULTI-MUFF"** if you fly the fastest open planes!

There are single jack COMPACT models too, for our own headset ranges including high performance Active Noise Reduction, powered by COMPACT...

3-POSITION MODE SELECTOR SWITCH

- **UP:** "INTERCOM" mode, with intercom, radio and music.
- **CENTRAL:** "PILOT" quiet mode, with just full radio and music.
- **DOWN:** (spring loaded back), radio PTT transmit.
